

GE Girls

If you enjoy
Science, technology,
engineering, or math, like
problem solving and
having fun
then this is the program
you!

This week-long program
offers hands-on,
interactive, engaging
activities
designed for YOU.

GE Girls

About GE Melbourne

GE Melbourne is home to GE Power and GE Transportation Digital Solutions. Together, we power and move the world. We design and engineer software that helps get the electricity to your homes safely and reliably. We build the software that moves trains across the United States and the World, delivering your food, clothes and video games (among other things) to our towns and neighborhoods.

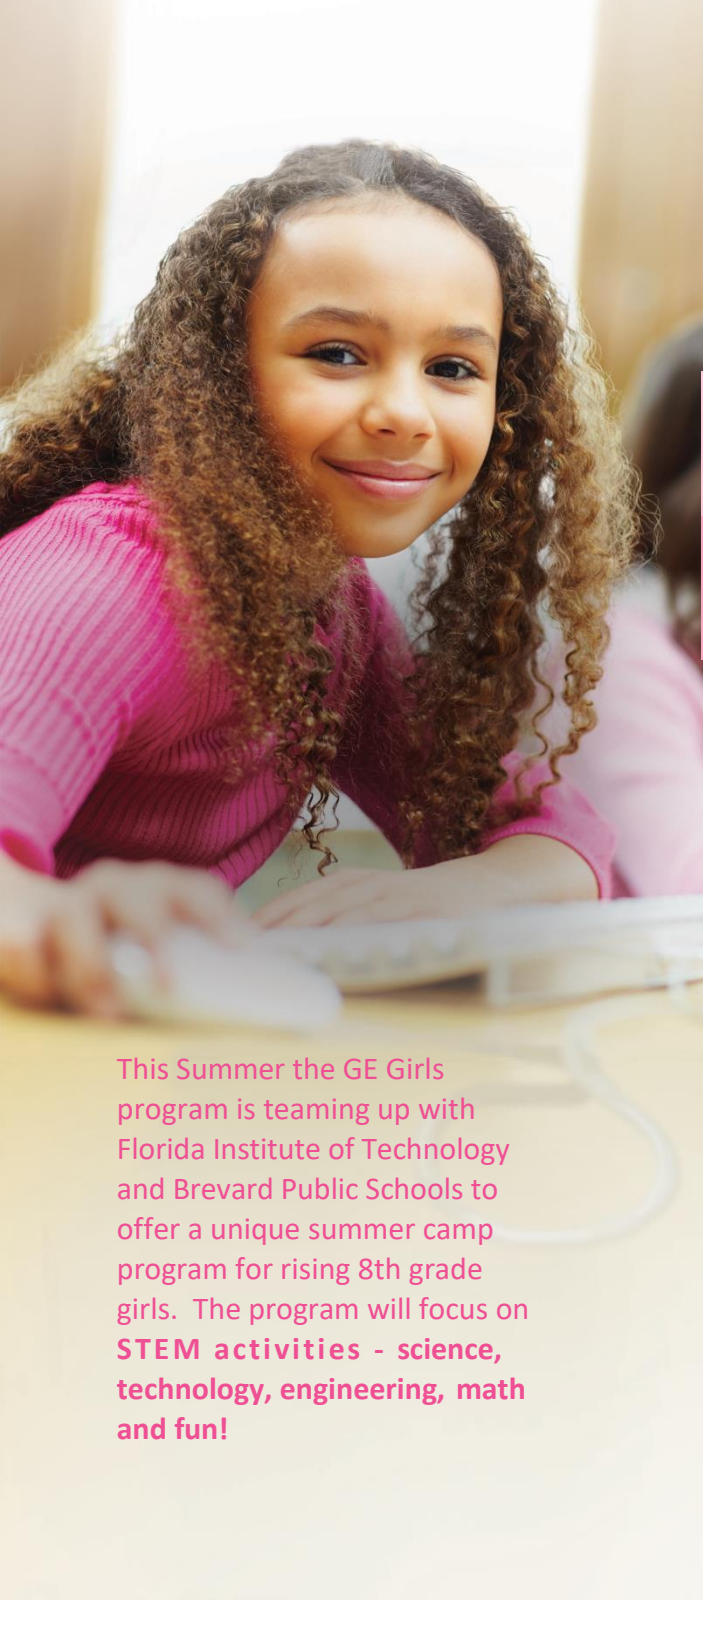

About GE Girls

GE Girls is an educational outreach initiative in partnership with universities across the U.S., designed for middle school girls interested in problem solving. The girls are exposed to various fields in Science, Technology, Engineering and Math (STEM) and potential career paths. GE Girls began in 2011 with one program: GE Girls at MIT and it has grown over time. This year we are pleased to partner with Florida Institute of Technology (FIT) to offer this camp to the students of Brevard County. Since its inception, GE Girls has reached over 4000 girls who will continue to engage with the program throughout their high school years.

*Florida Institute
of Technology*
High Tech with a Human Touch™

This Summer the GE Girls program is teaming up with Florida Institute of Technology and Brevard Public Schools to offer a unique summer camp program for rising 8th grade girls. The program will focus on **STEM activities - science, technology, engineering, math and fun!**

Program Schedule

	Monday 7/9	Tuesday 7/10	Wednesday 7/11	Thursday 7/12	Friday 7/13
Morning	Welcome & Warm Up to STEM	Zoom! Zoom! Larsen Motorsports	Marine Sciences Sebastian Inlet Sample Collecting	Laser/Plasma Spray Lab	GE Day STEM Control Systems
Afternoon	You've got Chemistry	Larsen Motorsports	Microscopic Water Sample Analysis	Go Figure!	GE Day Presentations & Celebration

Date:

July 9 – 13, 2018 (Monday - Friday)

Location:

Florida Institute of Technology & GE

Cost: Free for selected participants!

Sponsored by GE Girls in collaboration with the Florida Institute of Technology and Brevard Public Schools.

Spaces are limited, so register soon.

If you're interested in attending, see your science teacher.

GE Girls

GE Melbourne

The GE curriculum includes activities focusing on software technologies for energy and transportation control systems.

Girls will have the opportunity to interact with GE software engineers, system design analyst, business managers, and other professionals.

They will learn how software is developed to control & monitor the world's power grids and railroad transportation systems. Each program participant will meet with an accomplished mentor from GE.

Girls and their parents are invited to join GE leaders, mentors and program directors for a celebration at GE Melbourne on Friday July 13th.

Application Deadline is May 18, 2018
